

The image features a central text block flanked by decorative wavy lines. On the left, there are two overlapping waveforms, one in blue and one in red, with the blue wave having a higher frequency. These waves transition into a solid blue horizontal line that runs across the middle of the image. On the right, the blue and red wavy lines resume, mirroring the pattern on the left. The text 'seQuencing' is centered above the blue line, and the descriptive text is centered below it.

# *seQuencing*
